Transfer Guide - Baccalaureate Degree Plan (BDP) Associate in Science (AS) to BS Computer Science
This is a suggested guide. Following the guide does not guarantee admission to UNCG or guarantee an AS or BS degree will be conferred. Students should seek academic advising to determine the best course of study to meet educational goals and degree requirements. Refer to UNCG's admissions website for more information on admission and transfer of credits. Credit will only be awarded for transferable courses for which a grade of C or better is earned. Refer to the NC Transfer Course List for full listing of courses by designation - UGETC, CAA GEN ED, Pre-Major/Elective.

In completing the AS, in preparation for completing the BS Computer Science, students should complete the listed courses

| UGETC - English Composition (6 SHC) | Credits | UNCG Equivalent Course |
| :--- | :---: | :--- |
| ENG 111 Writing \& Inquiry | 3 | ENG 101 |
| ENG 112 Writing/Research in the Disciplines | 3 | ENG 102 |

The Bachelor of Science in Computer Science requires a minimum of 120 semester hours (sh). UNCG requires a minimum 2.0 overall GPA for graduation. The UNCG course schedule provides an outline for completing the degree in two years upon transfer. The Computer Science department strongly urges students not to take more than three computer science courses per semester (especially those that are deemed programming intensive or project-based). Thus, the degree plan could extend beyond two years.

For more information, visit the Department website: https://compsci.uncg.edu/
This plan reflects the degree program's requirements published in the 2023-2024 university catalog. All guides are meant as an example of how a degree can be completed. Course availability, prior credit, course prerequisites, major requirements, and student needs must be considered in developing an individual academic pathway.
